

## Design A Dog

---

Guide Dogs NT is calling on all schools in Darwin to give an old Collection Dog a new lease on life and enter the Design A Dog Competition.

Each participating school will be provided with an old Collection Dog to revamp and decorate in any way they choose.

Helen Shih NT Business Manager said she hopes schools will get on board during the month of March for a great cause.

“It’s a fantastic project to not only have some fun but also help improve the quality of life of someone living with a disability at the same time. It’s a win-win situation.”

Dogs will be on show in the Territory’s largest shopping centre – Casuarina Shopping Square – for two weeks from the start of April, with shoppers nominating their favourite by a coin donation.

Schools will be entered in different categories – primary, middle and high – with prizes awarded to the schools that have raised the most funds in their category.

Guide Dogs NT remains committed to engaging with the community to raise awareness about vision loss/impairment.
